SAP NetWeaver Application Server ABAP 7.4

AS ABAP incl. BW 7.4 SP5 on SAP HANA SP7 [Developer Edition]

Home > List > Solution Details

SAP NetWeaver Application Server ABAP 7.4 on SAP HANA - Trial Edition

Version: 7.4 SP03
Supported Languages: English

SAP NetWeaver Application Server ABAP used by tens of thousands of SAP customers and partners worldwide is now powered by SAP HANA. This enables your business to evolve towards real-time processing and analysis of large data sets. As a result, you can make faster and smarter decisions, quickly react to market changes, and explore new business models that yield unprecedented value.

- Implement new data-driven applications and accelerate key business processes by fully exploiting the power of SAP HANA
- Boost the productivity of your developers with E2E application development on Eclipse
- Enable lightweight access to business data and services with the embedded SAP NetWeaver Gateway technology
- Enhance the user experience of your business applications with the embedded UI development toolkit for HTML5 aka SAPUI5

SAP HANA Cloud Platform

The SAP HANA Cloud Platform, a next generation cloud platform, is based on breakthrough in-memory technology from SAP. Developers can quickly build impactful, highly scalable applications that leverage embedded analytics as well as massive speed and scale of SAP HANA. The apps deliver impactful experiences, including instant mobile access, that delight users and meet any business need.

Log On

Log on to your SAP HANA Cloud Platform customer or partner account with your SAP ID or SCN credentials.
